

Online Safety News

SPRING 2 EDITION

Dear Parents and Carers

This half term features Safer Internet Day! To celebrate, our core focus is being Internet Kind and learning how to Respect Each Other online.

What We're Doing in School

This half term, we are exploring the impact of our words online and looking at ways to spread positivity in digital spaces.

- **The Golden Rule:** Learning to be just as kind online as we are face to face.
- **Words Hurt:** Understanding that text messages, comments, and gaming chats can hurt just as much as spoken words.
- **If You Wouldn't Say It...:** Reminding children: "If you wouldn't say it to someone's face, don't type it into a screen."

How you can help at home

- ✓ **Encourage Digital Empathy:** When your child is typing a message or caption, ask: "How would you feel receiving that?"
- ✓ **Celebrate Safer Internet Day:** Keep an eye out for our upcoming Safer Internet Day school events this February! Take the time to talk about what it means to be a supportive online friend.
- ✓ **Keep the Conversation Going:** Ask: "Have you seen anyone being extra kind or unkind in your online games today?"
