

Online Safety News

SUMMER 2 EDITION

Dear Parents and Carers

This is our final online safety newsletter of the year! This half term we revisit all five Be Internet Legends pillars, celebrate children's learning, and prepare for a safe summer online.

What We're Doing in School

This half term we revisit all five pillars from our Be Internet Legends Curriculum, celebrate learning and prepare children for a safe summer online.

- **Sharp:** reviewing digital footprints and reputation
- **Alert:** practising spotting fake news and scams
- **Secure:** auditing passwords and privacy settings
- **Kind:** spreading positivity in online spaces
- **Brave:** knowing who to talk to if worried online

How you can help at home

✓ Make a Family Legends Pledge

Write a short family promise: 'We think before we share, check before we believe, keep passwords private, are kind online, and always talk if something worries us.'

✓ Summer Screen-Time Agreements

Agree when screens are used, where devices stay overnight, and which platforms are age-appropriate. Free parent guides at parentzone.org.uk

✓ Keep the Conversation Going

Ask: 'What did you do online today?' You don't need to be a tech expert – just talk!
